

Wednesday Riders AGM, Scout HQ

Higher Kinnerton - 1st October 2014

There isn't a great deal to write about this week but with our ace photographer **John**, there is always something worth seeing. **A.G.M.s** don't always excite us but can be a good time to plan activities for the next year. Having said that sixteen of us gathered outside the **Eureka** ready to follow **Brian L** on a route to the **Scout HQ** in **Kinnerton** (the **Welsh** one).

The weather was good and we welcomed back a few riders who had been on holiday, **Alan O** (Germany) and **John F** (Spain).

Listening to their exploits as we time passed quickly. We then to the bridge over the **Dee**,

rode down to the **Greenway** the turned off at **Blacon** and headed staying alongside the river to **Eccleston**.

We had split into two groups of eight but as we reached **Dodleston** the first group had turned right to the venue. When the second group came to the turn they realised they would arrive too early and decided to extend the ride a bit more. Our new leader was **Andy B** who thought it was a good idea

to double the speed of the ride - thankfully, by the time we got to **Burton Green** his EPO had run out and we slowed down.

It was here that our **Link editor Martin**, and **Sarah**, left us as they are residents of **Rossett**, so we will have to tell them the **CHAIN** of events of the meeting. Things like the very good report **Alan** gave, touching on particular rides he had enjoyed throughout the year. He also touched on maybe next year we could expand our car assist or train assist rides.

Brian L was our other main contributor. He and **Alan** together were the reasons our 50-mile ride was so successful

Mike and Alan

John F was thanked by **Mike C** for the effort he is putting in on the social side of our club. Isn't it great that **Noel**, who led rides over so many years, is still so involved - he and **Hazel** waited on us with refreshments.

Noel and Hazel

Thanks and a big respect to you both. Unfortunately, we had light showers our return home, and fragmented as people stopped to put waterproofs on.

Andy, who led the breakaway at **Dodleston** (you did), knows he broke the golden rule - let your leader know what you're doing! **Brian** could have been worrying if we were all safe, but it was a buzz.
