

# Eureka Cafe/C&NW CTC/Audax Rides

## Saturday April 6 2013

Eureka Cafe on the Wirral has been sheltering, supporting and serving cyclists for over 80 years. It is so famous, it has several documentaries to its name giving an outline of the history of the cafe and some of the many personalities associated with it.

The last Audax rides that started at the Eureka Cafe, to our knowledge, took place 20 years ago when the now defunct Sunspot Cafe and the Llandegla Moors were on the 200km route.

The Eureka Cafe is still used as an Audax UK ride control point. However, a group of local CTC and Audax riders believe that the cafe really should have its own rides starting and finishing in the cafe. So here we go in 2013.

**"Eureka Excursion"**, 200km: This ride is based on the Peak Audax "Eureka" ride -but starting at the Cafe itself and visiting the beautiful village of Ellesmere at the southern point. The route then heads off to Bunbury, Congleton and Wilmslow before returning through Great Budworth to the Wirral - a generally flat ride with many interesting and scenic lanes.

**"Two Mills Tour"**, 110km: This ride is routed to Bangor-on-Dee returning to the Eureka Cafe via Bunbury and Delamere Forest.

**"Two Mills Twirl"**, 60km: This is an introductory ride visiting Hildegard's Cafe in Holt followed by a return to the Eureka Cafe through Aldford and Mickle Trafford.

Further details of these good value rides, entry forms and route sheets are available at [www.audax.uk.net](http://www.audax.uk.net). Entries on line using Paypal or through the mail now available until the closing date of 2 April 2013.
