

TWO MILLS SUNDAY RIDE TO KINGLEY MILL 20th OCTOBER 2019

LED BY CHRIS LAMB.

The weather was fair as we gathered at the Bus Stop, opposite the Eureka Cafe and the thirty or so riders split into three groups, Our group of 6/7 was led by Paul Mills and the B ride route took us Dunkirk to Backford

with a good dose of glass along the A 41 before Backford, through Mickle Trafford then along the A56 then by Mouldsworth with a following climb to Manley followed by a ride along the ridge with wonderful views across the Cheshire plain to the Pennine hills before we dropped down to Kingsley Mill where the staff were waiting for us with a space to ourselves, very well organised, and the food came quickly.

They all look happy when eating! After lunch we returned by Crowton, Norley, and then through Delamere using the Cheshire Cycle Way, and through Mickle Trafford to the Greenway, Blacon, where some departed to go across the Marsh, while the main group went through Saughall and back to the Eureka.

We had a few spots of rain after lunch, but a good ride and our thanks to Chris Lamb.
Report by David Collinson.
