

The Nag's Head, Bunbury - 24th June 2018

Here we are at the bus stop already for the ride on the most beautiful day, plenty of sun and little wind. At the start there were fourteen riders, so off we went down **Woodbank Lane**, through **Saughall** and stopped just short of the **Greenway** only to find half the group missing!

To **Brian J's** surprise we went at top speed (at least it felt like that to one rider) along the **Greenway** to **Pipers Ash** and on to **Christleton** where we found the rest of the group waiting for us by the lake.

Thereafter we went as two separate groups, through **Waverton**, **Hargrave**, and **Tiverton** where we joined the **A49** for

a short while before turning off and climbing a hill to avoid the worst of the traffic on the **A49**, but in the narrow lane got stuck by a huge lorry, squeezed past while he was stationary, blocked by a stupid driver. It was here that I found I had a flat and pumped it up twice before arriving at the **Nags Head** for lunch, where I fitted a new inner tube. I think the sandwiches and chips went down well, but I was too busy and therefore no photos.

After lunch we went past **Beeston Castle** and the **Ice Cream Farm** and stopped at “**Old Ma’s**” café for ice-cream or cake or both, then on through **Bruera, Saughton,** and to the **Grosvenor foot bridge** for some of kind **Sue’s** jelly babies.

Thereafter it was along the **River Dee** until we came to the **Higher Ferry Bridge**, then the group split up and found their own way home, but those who followed the **Dee**

path found more wind than they would have wished!

Thank you **Brian** for an interesting and well thought through ride.
