

Walk Mill - 2nd December 2018

No fewer than thirty-seven **Two Mills** riders left **Eureka Café** on Sunday - a small group of three bound for **Aldford**, and the rest were divided into a fast group, an intermediate group, and a slower group - so there were not too many riders in a group. This major result is thanks to **Brian and Sylvia** for their diligence with the Friday email, and not to the weather which was looking doubtful with rain on the wind.

Here is the Sunday morning ritual of getting the bikes out of our cars ready for the ride - many thanks to **Tudor Rose** for allowing us use their car park, which reminds me - it must be time to express our thanks for this facility by donating £5.00 each to the Hotel.

Having paused to sort out the groups off they all went and here are two members of our

group enjoying riding along the cycle path adjoining the **A5117**, after going through **Capenhurst** - and shortly to cross over the road and pass through **Stoak**.

It was just after this that we were passed by a big green tractor and driver who having forced his way past, hurling expletives at us as he went, then immediately turned off !!

We then came to our normal stop at **Mickle Trafford** before continuing on our way via **Dunham, Kelsall, Willington, Oscroft**, and to **Walk Mill**.

You can see that Walk Mill was very busy, if not over pressured, but they coped well, with the Miller himself working overtime clearing the cups and plates.

It was good to have Bob and Jill Witton join us for lunch.

Again thanks to our Leaders who make all things possible.
