

Wednesday Riders. (Part of Chester & N. Wales CTC).

2017 Rides List .

A Preamble to the Rides List.

The rides committee agreed to the adoption of the following ride category definitions for the 2017 rides list. Leaders are requested to ensure that their rides meet the appropriate criteria.

A RIDE:

These are challenging rides varying in distance from 50 to 80 miles and occasionally more. Shorter rides are likely to be combined with challenging climbs with accumulated elevation of 3000 to 5000 ft. Longer rides will normally be flatter and might therefore be conducted at a faster pace. The first ride of each month occurring after clocks go forward and throughout the summer period would normally be an A ride.

B Rides:-

These rides should be suited to the fitness levels and ride aspirations of the majority of regular riders, varying in distance from about 40 to 60 miles. Again shorter rides are likely to include accumulated elevations of some 3000ft or thereabouts but proportionately less for the longer rides.

C Rides;-

These are suitable for riders who prefer their rides to be sociable in style and moderate in pace and generally flat. Distance would be of the order of 30 to 40 miles . They would be suitable for beginners or perhaps more mature riders looking for less demanding rides. Leaders agreeing to lead these rides would be expected to provide rides which meet the aforesaid criteria.

Winter Rides

Winter rides are generally local and therefore category C. Irrespective of distance these rides can be beyond the capabilities of some mature riders and/or beginners, if the group speed is excessive. Leaders are requested therefore to conduct winter rides at a pace which can be comfortably maintained by all riders in the group.

WEDNESDAY RIDERS (Part of CTC. Chester & North Wales)

RIDES LIST WITH LEADERS FOR 2017 (Updated 8 June)

Start Times from the Eureka. A ride 09.30 B&C Rides 10.00 unless otherwise advised
